Minor to Major is a play on words Jere'My uses to depict how he turned his minor setback of serving 5 years in prison into his major comeback of becoming the healer he is in the community today. He focuses on impacting the mindsets of lower income minorities and at-risk youths across the world. He does this by broadcasting on his many platforms with Minor to Major the [podcast](#), being his most active ingredients.

"I believe it takes a village to raise our children and support each other during our growth in life. I avoid pointing the finger at the oppressor and I choose to look inward to find ways to improve the quality of life for those who are most affected by systematic oppressions. What is it that we can do as a village to help ourselves? Let us start there." - Jere'My J. Rankins, MA LPC
